

Anita was determined to have a green lawn...even if it put her in the red.

Most people overwater or water incorrectly. It costs a lot—and can even lead to fungal disease and unhealthy lawns. Usually NOT watering is better than doing it wrong.

Find out when, how, and how much watering you need to do (or not do) with a complete guide to natural lawn care. Call **240.777.7700**. Or visit:
